

# 550

## Infrastructure

## We give your event the space it needs

**Our flexible layout concept is one of Halle 550's main highlights.** Thanks to innovative partition walls, the different halls can be organised to create the right space for you. To ensure that your event is a success both on stage and behind the scenes, our backstage facilities (cloakrooms, production office, control room, sanitary facilities, etc.) are also primed for comfort.

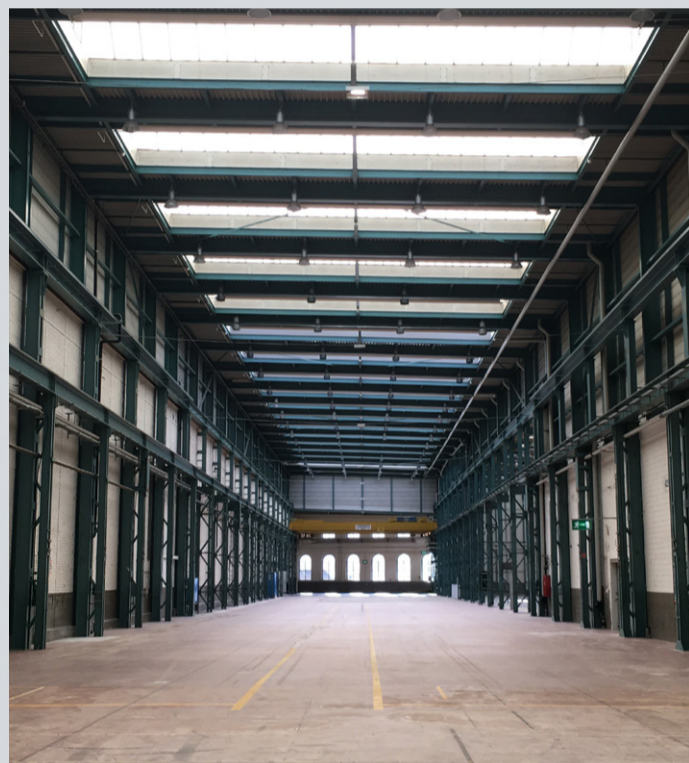

Halle 550 offers organisers of corporate and private events complete flexibility. If you'd prefer not to organise every aspect of your event yourself, we would be happy to provide the services you need. On request, we'd be pleased to take care of the event concept, architecture or scenography. We can also oversee the coordination between different service providers on your behalf.

**Get in touch with us today – we'd be delighted to help!**
